

*Looking to make a difference? Passionate about creating software for good cause? We are hiring! For our R&D team in Tel Aviv, we at **Sight Diagnostics** are looking for a **software team leader**. Reach out via email to careers@sightdx.com.*

As a software team leader you will be responsible to creating excellent software in a variety of technology stacks while building and managing a team of developers.

The ideal candidate should be:

- Team player with self-learning skills
- Passionate about building excellent software, quality code and sound system architecture
- Capable of designing and executing complex software projects while also managing ongoing releases; defining and prioritizing SW tasks; promoting good code practices and mentoring other developers; hands-on.
- At least 5 years of experience in software development
- At least 2 years of experience in leading a software development team
- Deep knowledge and experience in at least one of the following:
 - Python development
 - Data and cloud infrastructure
 - Modern full-stack development
- BSc/MSc in Computer Science or Information Technology - an advantage

About Sight:

The faster we diagnose, the faster we can treat. At Sight Diagnostics, we aim to improve health through faster and pain-free diagnostic testing.

Sight's latest analyzer, OLO, performs a Complete Blood Count, the most commonly ordered blood test, in minutes, not hours. It's compact: designed to be used by anyone, anywhere. The OLO analyzer is FDA 510(k) pending, not available for sale in the United States.

Sight's method, developed over a decade of research, represents a step-change in diagnostic technology. Our analyzers create a digital version of your blood, by capturing 1,000 highly detailed images of a finger prick sample, which is then interpreted by our proprietary algorithms. Sight's first product was focused on detecting Malaria, used in 24 countries, and has delivered almost 1 million tests to date. At Sight, exceptional individuals work together to achieve extraordinary things.

We have rapidly growing offices in London, Silicon Valley, and Tel Aviv. Learn more at sightdx.com.
